The eTrowel™ Benefits

- ◆ A black light for detecting germs will give the user the power to check their own work on the spot. A high powered bulb even allows the worker to use it during daylight with the lights on.
- ◆ An LED white light version for cleaning in dark places like a dark janitor’s closet. - Part# eTROWELw
- ◆ The rechargeable battery provides exceptional power – 10 hour run time (black light) & 30 hour run time (LED white light). Recharges in 4 hours.
- ◆ Color code your eTrowel™ with removable grips.
- ◆ Pocket system allows changing the microfiber pads without touching the soiled pad.
 - eWAVE pads – Low to heavy soil levels using TRIO SPLIT Technology™ with CPI’s mesh backing. Eliminate trigger sprayers with Pre-treating.
 - eGLASS pads – 100% microfiber glass cleaning cloth with foam backing to absorb extra solution. Quick, easy and non-streaking.
 - eSCRUB pads – Low to medium soil with short loop microfiber scrubber is great for tough, dried on debris.
 - eSNOW pads – For low soil levels, 100% short nap Microfiber. Great for desks & painted surfaces.
- ◆ Built in scraper for loosening those tough spots such as gum, glue, food, etc.
- ◆ Flexible base allows for cleaning curved surfaces.
- ◆ Durable construction made of high quality engineered plastics.
- ◆ Change the handle for a 360 degree swivel plate to convert to a wall and baseboard cleaner. - Part# eWALL
